Safety Screening Form
for participants in MRI Studies

Magnetic Resonance Imaging (MRI) is completely non-invasive. It can be relatively noisy, so you will be provided with hearing protection. MRI uses a strong magnetic field and radio waves. To preclude any risk of adverse effects or injury, please complete this form and hand it to the MRI scanner operator BEFORE ENTERING THE MRI ROOM. You will also need to remove all metallic objects, for example hearing aids, dentures, hair pins, jewelry and body piercing jewelry, keys, mobile phone, spectacles, watch, wallet, and clothing with metal fasteners.
